

Table-Top *Nori-Maki* Machine **SVR-NXA**

- New mechanical design to produce the stable and fluffy rice sheet.
- Convenient operation with a LCD panel supporting 7 languages (English, French, German, Spanish, Korean, Chinese, and Japanese by user selection on panel.).
- Selecting function of rice sheet feeding mode (No rolling up action) and re-roll up action button to be tighter roll sushi.
- Easy assembling and disassembling work by means of the reducing the parts quantity and simple composition.

Process

1 Places the nori (dried seaweed) onto the shaping plate.

2 The machine shapes the shari (vinegared rice) into a square and puts it onto the nori.

3 The filling is added by hand.

4 The nori-maki is rolled up.

5 The nori-maki is complete !

Specifications

Model : SVR-NXA
Input : AC100-240V, 50/60 Hz, Single phase
Capacity : 280-400 rolls / hr.
Roll Size : □25mm、□35mm、□46mm
